## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/26/05 has been entered.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 17-22, 25 and 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Williams et al., for reasons cited in the previous action.

4. Claims 17-32 are rejected under 35 U.S.C. 102(b) as being anticipated by Li et al., for reasons cited in the previous action.

***Response to Arguments***

5. Applicant's arguments filed 08/24/2005 have been fully considered but they are not persuasive.
6. Williams teaches the unsymmetrical (head-to-head) polymers where groups corresponding to "A" and "B" of compound I may be aromatic groups, prepared by causing the monomers to be polymerized in solution.
7. Also, regarding the photodimerization reaction of Li, the present claims are to the formulation comprising the polymer and the compound, not to the process of preparing the formulation (in solution or not). Even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. See *In re Thorpe*, 777 F.2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985).
